

Doctor of

HEALTH SCIENCE

Move Forward as an Agent of Change in Health Care

As health care continues to evolve, organizations need well-rounded leaders with the passion and ability to shape it for the better. This is your moment. Advance your career and expand your impact in your community with an emergent degree that positions you at the forefront of the health care field. Designed for health professionals from a wide range of backgrounds, our online Doctor of Health Science (DHSc) program builds skills and competencies in advanced professional practice for clinical, academic, or research settings.

Why Study at Purdue Global's School of Health Sciences?

Built for Working Adults

Complete courses online, without compromising your work or family schedule.

Backed by the Power of Purdue

Earn a degree you can be proud of — and employers will respect. Achieve more in the health care field with a name that opens doors in your career.

Experience Counts as Credit

Transfer up to 28 elective credits from your master's degree to graduate sooner and save on tuition.¹

Expert Faculty

Learn from experienced health care professionals who are currently practicing in the field. All faculty possess advanced academic degrees.

Career-Focused Curriculum

Come back qualified for the roles you want. Prepare to handle complex new developments in research, analysis, leadership, policy, and health care or health-related issues.

Personal Support

Work directly with faculty through synchronous and asynchronous coursework, and connect with your doctoral committee online. In addition, academic and career advisors are dedicated to helping you balance school with your career and life responsibilities.

An Education That's Proven and Respected

Purdue Global is backed by Purdue University. One of the most prestigious universities in the world, Purdue ranked #16 overall and #1 in education among *Fast Company* magazine's prestigious

World's Most Innovative Companies.²

Take the Next Step in Your Education and Career

GAIN THE PRACTICAL KNOWLEDGE AND SKILLS THAT EMPLOYERS DEMAND

- **Critical Thinking:** Evaluate health-related research, trends, issues, policies, and programs.
- **Problem Solving and Innovation:** Generate evidence-based, innovative solutions to health issues for diverse populations at the national, international, and global levels.
- **Communication:** Effectively communicate with key stakeholders to advance health research and practice.
- **Diversity, Equity, and Inclusion:** Advance diversity, equity, and inclusion practices within the health care environment.
- **Leadership and Organizational Effectiveness:** Contribute to building ethical, people-centered organizations that positively impact health delivery.

The Doctor of Health Science program prepares students to operationalize their advanced research and complex problem-solving in an academic or industry leadership setting.

Curriculum

The comprehensive curriculum emphasizes advanced knowledge, skills, and professional practice and helps you develop leadership skills through a health science lens. The coursework includes a set of core doctoral-level advanced courses and a variety of graduate health sciences micro-credentials and electives that allow you to customize your degree to your goals.

Core Courses Include:

- Advanced Health Policy
- Global and National Health and Health Systems
- Advanced Health Issues and Trends
- Advanced Health Research and Analysis Methods
- Advanced Health Leadership

Doctoral Project

The program culminates in a final project that applies the skills and concepts you study online to real-world issues. You may choose between a dissertation or an applied project that addresses a challenge or need in health or health care policy, administration, higher education, or clinical practice.

Program Detail

Credit Hours: 88

- **Core Credits:** 40
- **Elective Credits:** 48
- **Total Credits:** 88

Terms: 10 weeks long

Start Dates: Throughout the year

Completion Time³: 2 years

Program Qualifications

To qualify for this program, you must either:

- Hold a master's degree in a health or health care-related field and possess 3+ years of relevant professional experience in a health, health care, or related setting.
- Hold a master's degree in any field of study and possess 7+ years of relevant experience.

A transcript indicating a cumulative GPA of 3.0 or higher in your master's degree is required.

Personalize Your Degree

Purdue Global's DHSc program offers you the flexibility to customize your degree through your choice of electives and health science micro-credentials in areas such as global health, health care administration, data systems, and more.

Other Doctoral Programs

- Doctor of Nursing Practice
- Doctor of Education in Leadership and Innovation

Career and Networking Opportunities

Industry Outlook⁵

- Employment of medical and health service managers is expected to grow 28% from 2022–2032—much faster than the average for all occupations.⁴
- Health care is expected to grow much faster than average for all occupational groups, with **1.8 million new jobs** expected by 2032. Demand for health care services is expected to increase due to an aging population and greater demand for health care services.⁵
