Build the Core Skills and Competencies That Employers Demand

Gain the administrative, ethical, and professional skills to take on leadership positions throughout the health care field. The program prepares you to do the following:

- Design and administer health and wellness promotion programs.
- Provide products and exercise and fitness programs to help clients reach optimum wellness.
- Maintain relationships with health promotion agencies, organizations, and professional health and wellness associations.
- Work with clients one-on-one and in group settings on stress and time management, lifestyle balance, and other key wellness factors.
- Train and educate clients on issues in contemporary diet and nutrition, as well as healthy eating at all stages of life.
- Evaluate current research in nutrition, exercise science, health psychology, stress management, and complementary and integrative medicine.
- Exhibit multicultural literacy in the fields of health care and wellness promotion.
Our comprehensive curriculum covers the major concepts, theoretical perspectives, and historical trends in nutrition, exercise science, health psychology, stress management, and complementary and alternative medicine. The courses are reviewed and revised regularly by industry experts to ensure they reflect the most recent developments in the field.

“The value of the health and wellness program is immense. I have seen students open their minds to new realities and new opportunities simply by being exposed to the ‘big picture’ ideas and experiences in these courses. When students are recognized as unique human beings with aspirations of helping others, the results are inspiring.”
