BECOME A LEADER IN THE GROWING FIELD OF HEALTH INFORMATICS

In today’s electronic and data-driven health care industry, the demand for experts in health informatics continues to increase. Purdue University Global’s online master’s degree intersects health care, computer science, and information management. The program is aimed at preparing you to analyze and apply innovative technology with a focus on maintaining, improving, and advancing health outcomes for patients through the use of information systems, software, and databases. Our master’s degree program is ideal for experienced health care professionals who are looking to advance their careers or for qualified IT workers who wish to transition into the health care industry.
Why Study at Purdue Global’s School of Health Sciences?

ONLINE FLEXIBILITY FOR WORKING ADULTS
Earn your degree 100% online, while meeting the demands of your career. You can also visit one of our regional locations to take advantage of local, onsite support and services.

FACULTY EXPERTISE
Learn from experienced professionals currently active in the field. All professors possess advanced academic degrees.

RELEVANT, RIGOROUS CURRICULUM
Explore leadership in health care, health informatics, health care data analysis, statistics, project management, and health information systems.

HANDS-ON EXPERIENCE
Apply your learning to a real-world issue in health informatics through a final capstone project.

ONE-ON-ONE MENTORING
Work directly with faculty during online discussion boards and faculty office hours, and enjoy no-cost individual tutoring. In addition, academic and career advisors are dedicated to helping you balance school with your career and life responsibilities.

NATIONALLY RANKED AND RESPECTED
Purdue Global is part of the respected Purdue University system. One of the most prestigious research universities in the world, Purdue University is ranked in the top 10 best public universities in the U.S. by The Wall Street Journal/Times Higher Education.

EARN A VALUABLE CREDENTIAL TO ADVANCE YOUR CAREER

PREPARE FOR HEALTH INFORMATICS LEADERSHIP ROLES
Our master’s degree can help you position yourself at the forefront of efforts to improve the nation’s health care system. The program serves as a specialized career pathway to build on your existing skills and expertise to help you qualify for management positions in health informatics.

DRIVE DATA IMPROVEMENTS IN CLINICAL, FINANCIAL, AND PUBLIC HEALTH
Learn to use information technology and information management concepts to improve the efficiency and quality of health care services.

PROGRAM OUTCOMES
- Evaluate technology integration into the health care environment.
- Defend the impact of professional standards on health informatics.
- Interpret health care data through the application of technological tools.
- Design health informatics solutions with socio-technological considerations

HIMSS-APPROVED EDUCATION PARTNER
HIMSS-approved educational programs, which include the Master of Health Informatics, provide advanced knowledge in health information and technology or health care and prepare candidates to sit for the CAHIMS or CPHIMS exam.

HIMSS ACADEMIC ORGANIZATIONAL AFFILIATE
As an Academic Organization Affiliate of HIMSS, Purdue Global can provide students and faculty with resources to address global health and wellness through information and technology.
Curriculum

The comprehensive interdisciplinary curriculum focuses on the relationship between information technology, people, health, and health care systems. Courses are reviewed and updated regularly by industry experts to ensure they reflect the most recent developments in the field.

**CAPSTONE PROJECT**

The Master of Health Informatics program culminates in the successful completion of a practice-focused capstone project. This project provides you with opportunities to apply what you've learned to a challenging, real-world problem or issue in health informatics. You will conduct the capstone project under the mentorship of a faculty advisor.

**PROGRAM DETAIL**

Program Length: Less than 18 months of full-time study  
Course Load: 2 courses per term  
Terms: 10 weeks long  
Start Dates: Throughout the year  
Delivery: 100% online

The mission of the Master of Health Informatics program is to prepare graduates to assume key roles in the field of health informatics, and provide an engaging educational experience that incorporates the flexibility and accessibility offered via a fully online delivery format. Accreditation and industry-driven competencies of health, information science and technology, and social and behavioral science domains will be delivered through curricular approaches driven by evidenced-based learning practices.

“After I obtained my MHI, my employer presented opportunities for growth in the future that I may not have otherwise met the qualifications for. Being able to grow with a company that I enjoy working for is very important to me since I was not planning to leave my current organization.”

Haimwattie Pariag  
Faculty Member, MHI Graduate
Career and Networking Opportunities

INDUSTRY OUTLOOK 5

- Employment of medical and health service managers is projected to grow 32% from 2020 to 2030—that’s 8 times the average for all occupations.
- Demand for managers with knowledge of health information technology (IT) and informatics systems will be fueled by the aging of the large baby-boom population as well as widespread use of electronic health records (EHRs).
- Candidates with a master’s degree in health administration or a related field, as well as knowledge of health care IT systems, will likely have the best prospects.

THE CENTER FOR CAREER ADVANCEMENT

Our team of Career Specialists helps connect graduates with job and networking opportunities and offers the following assistance:

- Career assessment/exploration
- Resume and cover letter review
- Interview preparation/mock interviews
- Portfolio development to showcase your skills
- Assistance in building an online presence
- Job search and networking support
- Virtual career fairs
- 24/7 online access to job openings and career development tools

CAREER PATHWAYS AND OUTCOMES 2

Roles
- Medical records and health information technician
- Compliance officer
- Application analyst
- Clinical analyst
- Data analytics/data mining engineer
- Health informatics advocate
- Public health information officer
- Computer and information research scientist
- Information security analyst
- Statistician
- Pharmacies

Settings/Industries
- Hospitals
- Primary care facilities
- Physicians’ offices
- Insurance companies
- Pharmacies

“A health sciences education offers you the opportunity to gain exposure to a rapidly changing field. We are committed to providing the training and skills to help you begin or advance a career in the health field.”

Dr. Keith L. Smith
Dean, School of Health Sciences 4

Accredited by the Higher Learning Commission

The HLC (HLCommission.org) is an institutional accreditation agency recognized by the U.S. Department of Education.

Military Friendly

We offer reduced tuition rates for servicemembers, veterans, and spouses.
