Master of

HEALTH INFORMATION MANAGEMENT

Come Back Prepared to Lead in the Growing Health Information Field

It's time to earn the degree your career deserves. Purdue Global's online master's degree program delivers the expertise you need to qualify for leadership positions in health information, management, administration, education, and research. The curriculum intersects business, health care, and data management, focusing on the strategic and operational relevance of clinical information, resources, workflow, and connectivity within the health care and public health sectors. Graduate prepared to get ahead and stay ahead in this rapidly evolving field.
Why Study at Purdue Global’s School of Health Sciences?

Built for Working Adults
Complete courses online, without compromising your work or family schedule.

Backed by the Power of Purdue
Earn a degree you can be proud of — and employers will respect. Achieve more in the health care field with a name that opens doors in your career.

Expert Faculty
Learn from health care and education experts who are practicing professionals in the field. All Health Sciences faculty possess advanced academic degrees.

Career-Focused Curriculum
Explore organizational development and management for health information, human resources for health care managers, health care financial management, and leadership in health care.

Experience Counts as Credit
Get the credit you deserve. Graduate sooner by using prior academic, work, and military experience for credit.1

Practical Experience You Can Count On
Apply what you learn to a real-world issue facing health care management during your final capstone project.

Personal Support
Work directly with faculty through online discussion boards and seminars, and enjoy no-cost individual tutoring. In addition, academic and career advisors are dedicated to helping you balance school with your career and life responsibilities.

Nationally Ranked and Respected
One of the most prestigious research universities in the world, Purdue ranked #16 overall and #1 in education among Fast Company magazine’s prestigious World’s Most Innovative Companies.2

Prepare for Leadership and Management Roles
Advance your career in technology-supported, data-driven settings across the health care industry. Develop the skills to ensure that an organization’s patient data is effectively managed and in regulatory compliance.3 You’ll have the opportunity to:
• Design effective business strategies based on concepts of leadership and management within health information.
• Analyze the impact of economics, ethics, professional standards, and the law on health information.
• Evaluate public policy and health policies and procedures to address health information needs in the industry.
• Compare health information systems based upon statistical and financial models.

HIMSS-Approved Education Partner

HIMSS-approved educational programs, which include the Master of Health Informatics, provide advanced knowledge in health information and technology or health care and prepare candidates to sit for the CAHIMS or CPHIMS exam.

HIMSS Academic Organizational Affiliate

As an Academic Organization Affiliate of HIMSS, Purdue Global can provide students and faculty with resources to address global health and wellness through information and technology.
Curriculum

Coursework focuses on the design, selection, implementation, support, and maintenance of global health information systems. The curriculum is reviewed and revised continually by industry experts to ensure it reflects the most recent developments in the fast-changing HIM field.

Capstone Project

The Master of Health Information Management program culminates in the successful completion of a practice-focused capstone project. This project provides you with opportunities to apply what you’ve learned to a challenging, real-world HIM problem or issue. You will conduct the capstone project under the mentorship of a faculty advisor.

Program Detail

- **Program Length:** Less than 18 months of full-time study
- **Course Load:** 2 courses per term
- **Terms:** 10 weeks long
- **Start Dates:** Throughout the year
- **Delivery:** 100% online

Additional Programs

- Master of Health Care Administration
- Master of Health Informatics
- Master of Health Information Management
- Master of Public Health
- Master of Science in Health Education and Promotion
- Doctor of Health Science

Experts in Health Information Management are unique given their need for attention to detail and quality, to respect and protect patient information, as well as engage with a wide range of medical professionals. The MHIM program welcomes these remarkable individuals to continue to grow and diversify these skills.”

Career and Networking Opportunities

Industry Outlook

• Employment of medical and health services managers, a category that includes health information managers, is projected to grow 28% from 2022 to 2032, much faster than average for all occupations.
• Demand for managers with knowledge of health information technology (IT) will be fueled by the large, aging baby boom population as well as widespread use of electronic health records (EHRs).
• Candidates with a master’s degree in health administration or a related field, as well as knowledge of health care IT systems, will likely have the best prospects.

Career Pathways and Outcomes

Roles

• Medical records and health information technicians
• Compliance officer
• Medical and health services managers
• Medical records manager
• Data quality manager (clinical and/or administrative)
• Health information management director
• HIM manager/supervisor
• HIM clinical documentation specialist
• EMR manager/consultant
• HIM quality auditor
• Insurance providers
• Long-term care organizations

Settings/Industries

• Hospitals
• Health care clinics
• HMO administrative offices
• Insurance providers
• Long-term care organizations

Center for Career Advancement

Our team of Career Specialists help connect graduates with job and networking opportunities and offer the following assistance:

• Career assessment/exploration
• Resume and cover letter review
• Interview preparation/mock interviews
• Portfolio development to showcase your skills
• Assistance in building an online presence
• Job search and networking support
• Virtual career fairs
• 24/7 online access to job openings and career development tools

Being a health information management professional is a rewarding career, which helps to assure accurate data capture thereby promoting improved patient experience. Moving into a leadership position by obtaining a master’s degree in HIM moves one into the reality of improving health care for all.”
