Message From Our Dean

SARA SANDER, PHD

PhD in Education,
Emphasis in Adult Education,
Capella University
MA and BA in
Communications, University of
Arkansas at Fayetteville

To those considering enrolling in one of our programs, we thank you for your interest and inquiry. I'm proud to say that our programs are designed to prepare students to become active professionals and leaders in careers that are cornerstones to developing and sustaining communities, ensuring proper oversight, and advocating for general and need-based populations. Needless to say, our students tend to have a heightened drive to pursue their goals and a passion for their personal aspirations.

We recognize and respect that talent and tenacious commitment by offering degrees and concentrations built on principles of communication, social awareness, critical thinking, and ethical decision-making to address the complex, evolving, and at times unique challenges our students will face in their careers. Purdue University Global's interactive platform provides students with the opportunity to exchange ideas with like-minded classmates and faculty in an environment that encourages individuals to become change agents.

Every day, I see determined individuals driven to acquire the skills, knowledge, and presence of mind they need to "advance confidently in the direction of their dreams," to quote philosopher Henry David Thoreau.

Over the past 15 years, I've been fortunate to learn how many of our students have done just that, making a difference and fulfilling their personal and professional dreams.

I take pride in knowing that Purdue Global helped our graduates take the next step in their careers and in their lives. It's a thrilling, rewarding, and, more than anything, inspiring experience. I hope you will consider becoming a part of our exciting online academic community.

Sara Sander

College of Social and Behavioral Sciences at Purdue Global

Purdue's Online University for Working Adults

Backed by one of the most respected universities in the nation, Purdue Global is built for the driven adult learner. Get the online flexibility you need to fit a respected degree into your life.

An Entire Campus, Online

The hub of your student life is entirely online at Purdue Global Campus. This is where you'll find all of your courses, degree plans, support services, and the tools and resources you need to succeed.

Cutting-Edge Courses

At Purdue Global, your courses will be interactive and engaging. We use advanced technology and enhanced delivery methods that make classes accessible and easy to use. Navigate lessons and web field trips with a simple click, and communicate with fellow students and faculty through discussion boards.

Learning Online, But Not on Your Own

Online learning has a reputation for being a solitary experience. Not at Purdue Global. Connect to peers and faculty in and out of class through a variety of opportunities including:

- Live seminars
- Roundtable discussions
- Speaker series webinars that connect students, alumni, subject-matter experts, and industry leaders
- Discussion boards to foster lively academic discussions
- Social media tools including school-specific Facebook pages and community interactions
- Special career-specific activities, events, and clubs that allow you to meet and network with people in your field

Giving You the Credit You Deserve

You've spent years working hard and building knowledge, and Purdue Global values your experiences. We offer several pathways that help you save time and money as you earn your degree:

- Earn academic credit for prior college education, as well as work and life experience¹
- Choose an accelerated bachelor's-to-master's degree option²
- Qualify for reduced tuition rates for servicemembers, including Guard and Reserve, military veterans, and their spouses
- Start whenever you're ready – our 10-week academic terms begin every month

Academic Quality

Career-Focused Curriculums

Come back qualified for the roles you want.³ Our programs and courses are regularly monitored to ensure current industry alignment. Purdue Global is accredited by the Higher Learning Commission (HLC). The HLC (HLCcommission.org) is an institutional accreditation agency recognized by the U.S. Department of Education.

Expert Faculty With Real-World Experience

Our faculty are experienced practitioners, many of whom hold advanced degrees in their respective fields. They have the first-hand knowledge and subject-matter proficiency to shape our curriculum to meet your needs. Nearly all of Purdue Global's more than 1,500 faculty members (98%) have an advanced academic degree; 48% hold a doctorate.⁴

Personalized Degree Paths

Whether entering a new field or enhancing your established career, Purdue Global delivers a curriculum that helps you reach your unique goals.³ Personalize your degree through concentrations or open electives that set you up for success.

A Network of Good

There's a growing need for professionals who contribute to the well-being of society. Don't just go back to school — come back stronger and more prepared than ever to support your community. Whether your passion resides in applying and interpreting laws and regulations, improving community governance, or making a difference in an individual's life, Purdue Global is here to help you advance in your chosen field and bring about positive change.³

**TRY OUR CLASSES BEFORE
YOU OWE ANY TUITION.**

That's the Purdue Global Commitment

You should feel fully confident about where you choose to pursue your education — before you owe any tuition.

Start your comeback with a Purdue Global undergraduate program for an introductory 3-week period to see if online learning is right for you.⁵

Environmental Policy

Bachelor of Science in Environmental Policy and Management

A new “green” economy is gaining a stronghold in the private and public sectors. New regulations and incentives are driving change, creating careers that require knowledge and accountability in environmental policy.⁶ Purdue Global’s environmental policy and management program is designed to help you build your expertise and prepare to expand your professional opportunities.³

The degree is designed to provide graduates with a deep understanding of the environmental policy-making process and help them develop the skills to enact and enforce that policy within a variety of organizations—both in and outside of “green” industries.

Blending science and business skills with environmental and regulatory knowledge, you could help organizations make effective environmental policy or management decisions. Discover how to create environmental policy on both large and small scales, and how environmental issues can be resolved and implemented.

The Bachelor of Science in Environmental Policy and Management program offers an interdisciplinary opportunity to study environmental issues and policy from a perspective that explores the interrelationship between public and private sectors and society, economics, and the environment.

The program focuses on the environment in conjunction with a set of core courses in science, economics, and policy. You will study how institutions in society, including government, businesses, and nonprofits, all participate in devising solutions to environmental issues. This interdisciplinary program draws courses and faculty from disciplines across Purdue Global including business, social and behavioral sciences, health sciences, and legal studies.

Fast Track to a Master’s Degree

Our flexible degree pathways allow you to work toward a Purdue Global master’s degree in public administration, human services, legal studies, or psychology while you earn your bachelor’s degree.² Complete both your bachelor’s degree and master’s degree in less time and at a lower cost than completing both programs separately.

Bachelor of Science in Sustainability

Move your career forward in the fast-changing field of sustainability. The online bachelor’s degree at Purdue Global prepares you to take on the critical environmental, economic, and social issues of our time. Equip yourself with the knowledge and capabilities to pursue roles in corporate sustainability, environmental consulting, health care, natural sciences management, operations management, politics, and urban and regional planning. You’ll be able to guide organizations in sustainable practices and work toward a more resilient future for all.³

At its core, the bachelor’s degree curriculum builds your understanding of environmental and sustainability issues so you can make effective, ethical, and reasoned decisions. Your courses combine science with communication, data literacy, policy, management, and leadership principles to give you a well-rounded perspective. Depending on your concentration, delve deeper into questions regarding sustainability and decision management, international business development, environmental resilience and conservation, public health, social justice, and supply chain management.

At the end of the program, you'll be able to evaluate environmental regulations and policy, and interpret sustainability research to develop new solutions to complex issues. You'll graduate knowing the impact that humans, technology, culture, economics, and other factors have on the environment at the local and global levels. And you'll have the skills to communicate your ideas across various sectors. With the online bachelor's in sustainability, prepare to become the professional that organizations turn to and drive positive change in your workplace and the world.³

Admissions

Purdue Global is committed to admitting individuals who are academically prepared to succeed in our programs. We are also committed to making the process as easy and straightforward as possible. Your Admissions Advisor will walk you through the entire process and is there to answer your questions.

Transcripts from foreign institutions must meet the same requirements as domestic institutions and must be translated and evaluated by an approved foreign credential evaluator prior to enrollment.

Speak to your Admissions Advisor for information related to international availability. Not all programs are available for enrollment.

Admissions Overview

Specific admissions requirements vary by program, and details can be found in the University Catalog (Catalog.PurdueGlobal.edu). No matter what educational or career path you choose, you can expect to do the following:

- Complete an interview with your Admissions Advisor in which you identify your educational and professional goals, ask questions, and explore whether Purdue Global is right for you.
- Take a virtual tour to see what our online classrooms are really like.
- Submit any required documents (e.g., unofficial transcripts).
- Complete and sign your Enrollment Agreement.

Basic Requirements

Undergraduate Applicants

You must have completed high school or received a General Equivalency Diploma (GED) or other approved equivalent.

Graduate Applicants

You must have completed a bachelor's degree program at an accredited college or university with a 2.5 cumulative grade point average (CGPA) or higher.

International Applicants

You will need to provide evidence of English language proficiency.

ONLINE LIBRARY

Access books and other resources without having to leave your desk.

Through the Purdue Global Library's website, you will have access to thousands of e-books and periodicals, including professional, scholarly, and trade journals, and other monographs. Because library skills are an integral part of your academic achievement, guidance on the use of our research tools and resources is available to you through interactions with library staff, video demonstrations, and other instructional aids. Professional librarians and trained support personnel are available to assist you by email, live chat, and telephone.

Paying For School
