COMMENCEMENT SPEAKER

Dear Graduates,

Not long ago, I was sitting right where you are—anxiously awaiting to hear my name called and be recognized for my hard-earned degree. And now, like you, I am proud to call myself a Purdue University Global alumna. Born and raised in Louisiana, I am the younger of two children and proudly wear the title of "baby in the family." Although I am the youngest, I have been blessed and honored to be a trailblazer in my family by being the first to graduate high school and a first-generation college graduate. As the first to achieve these milestones, it felt empowering but also frightening at times. Throughout my educational journey, I did not have much in the way of mentorship, but I always had a deep desire to empower others and help them lead a healthy lifestyle.

After graduating high school, I had no idea how to enroll in college, nor did I feel I was good enough to attend one; I began working instead. I worked for 9 years in sales and business development before deciding to make a drastic life change and pursue an associate’s degree. After struggling to find a job within my desired field, I decided to return to school and attempt to acquire my bachelor’s degree and further advance my education. In 2019, I enrolled at Purdue University Global.

As many of you know, it was not always easy balancing life, school, and a full-time job. However, in 2020, after many late nights and a lot of hard work, I earned Magna Cum Laude honors for my Bachelor of Science in Health and Wellness. I was so proud.

After graduating with my bachelor’s degree, I began to shadow a surgeon in Lafayette, LA. He saw something in me that I never saw in myself. While I always had a passion for helping others, I had never truly opened myself up to the possibility of pursuing a career in the medical field. A goal like this always seemed unreachable, but now, seeing the confidence this surgeon had in me made me realize that the possibilities are endless. My dream now felt like it could be a reality.

With his encouragement, I decided to pursue a career in medicine. I recently submitted my application to Purdue Global’s Master of Public Health program while also working on becoming a certified health coach. From there, I will be applying to medical school. It brings me great joy to share with you how far I have come on my journey, and I hope by doing so it inspires you to dream big, believe in yourself, and know that you can achieve greatness! Your degree can bring you limitless opportunities. Never stop dreaming!

Congratulations, graduates! You did it!

The awarding of degrees to the candidates’ names in this program is contingent upon the satisfactory completion of the appropriate requirements by each candidate, as verified by the Registrar. The listing of a student’s name in this program, or participation in the ceremony, does not ensure his or her graduation or the award of honors. This list includes only those who registered to participate in the graduation ceremony by April 2, 2021. Academic honors statuses noted in this program are based on the student’s CGPA as of April 2, 2021.
THE MACE

The mace was originally a medieval weapon that was carried by bishops of the church into battle as a protective device. After more than 900 years, a ceremonial mace continues to be designed in a shape similar to a club, commemorating its very early use.

In later times, the mace was carried by sergeants-at-arms who were bodyguards of kings and others of high rank. Both Richard I of England and Phillip II of France ordered their sergeant-at-arms to carry a ceremonial mace. Legislative bodies such as the English Parliament also adopted the ceremonial mace as part of the pomp and circumstance associated with opening the meeting of the body.

As universities developed during this same period, they too adopted the mace for use in academic processions. Today, the mace is carried by the Macebearer who leads the platform party, which includes the University Chancellor and other dignitaries, onto the stage for the graduation ceremony.

Throughout history, special craftsmen were presented with the task of decorating the mace so it carefully embodied the history, traditions, and symbols of the academic institution.
