PRESIDENT'S MESSAGE

Dear Graduates,

The overall Purdue University student body numbers more than 106,000 — all diligently pursuing the accomplishment you earned today.

Among that great number, there are none we are more proud of than you. We try to challenge and motivate our young students to develop fortitude and persistence, but we would be hard-pressed to suggest to them a better example than the determination that brought you to today's achievement. Many of you have done so while balancing a host of other responsibilities, and you greatly enrich our community.

It is a pleasure to welcome our newest Purdue Global graduates to the family of Boilermaker alumni. Congratulations! We eagerly look forward to watching your continued success.

Hail Purdue!

COMMENCEMENT SPEAKERS

Welcoming Remarks

Eva M. Nodine, CPA
Chief Executive Officer (CEO)

Eva Nodine is chief executive officer (CEO) of Purdue Global, where she oversees every academic, organizational, and operational function at the university. Her connection to Purdue Global's mission runs deep. As a first-generation graduate and working mom, she understands the challenge of pursuing a degree while juggling life's demands. Twenty years ago, an online university helped her complete her bachelor's degree while raising her sons — an experience that reshaped her trajectory and now drives her leadership.

Nodine's path to the CEO role began in finance. She most recently served as chief financial officer and chief operations officer at Purdue Global, following roles as Purdue University's vice president and deputy chief financial officer and assistant treasurer of the Purdue Board of Trustees. Since joining Purdue in 2012, she has led major transformations across the university's financial systems, cash management, forecasting, and fiscal planning, building on years of experience in public accounting focused on not-for-profit auditing and business tax.

Nodine holds a Master of Business Administration from Purdue University's Mitch Daniels School of Business and a Bachelor of Science in Accounting and Forensic Accounting from Franklin University. She has been a Certified Public Accountant (CPA) in Indiana since 2008 and received an Indiana CPA Society Women to Watch Award in 2025.

Alumni Commencement Address

Ismail Joseph, MS
Alumni Speaker

Ismail Joseph is a proud Purdue Global alumnus who serves as an adjunct faculty member and works in the Center for Career Advancement at the university. He has dedicated over 17 years to supporting adult learners as they navigate the complexities of returning to school, advancing their careers, and redefining their futures through his background in admissions, academic advising, career development, and student success coaching.

Known for his engaging and relatable approach, Ismail teaches communication and professionalism, equipping students with practical skills while challenging them to think beyond the degree to the life they are building. In recognition of his impact, he was named the 2026 Adjunct Faculty Member of the Year by the School of Multidisciplinary and Professional Studies.

Beyond the classroom, he is the founder and executive director of Student Life 101, an educational initiative that helps students navigate life through a Christ-centered lens. He also serves as an associate pastor, investing in the next generation through mentorship, youth development, and community engagement. Ismail resides in Central Florida with his wife, Loraine, and their three children, Jeremiah, Jaliyah, and Janiyah.

His message to graduates is simple: "You don't have to be great to start, but you have to start to be great."

Special Recognition, Degree Conferral, Closing Remarks

Jennie M. Sanders, PhD

Chief Academic Officer and Senior Vice President

Jennie M. Sanders, PhD, is Purdue Global's chief academic officer and senior vice president. As the university's senior academic leader, she oversees academic programs and operations, faculty development, student success, and the integration of emerging technologies into teaching and learning.

A first-generation college graduate, Sanders understands the transformative power of education and is passionate about expanding access and opportunity for learners from all backgrounds. That perspective continues to shape her leadership and commitment to student success.

Before joining Purdue Global, Sanders served as vice president at Western Governors University, where she led transformational initiatives across instruction, faculty experience, and decision intelligence that improved student outcomes and introduced the university's first artificial intelligence (AI)-guided intervention system.

A nationally recognized thought leader on artificial intelligence and the future of higher education, Sanders has presented at SXSW EDU, the ASU+GSV Summit, EDUCAUSE, and the ASU Agentic AI in Education Summit.

Sanders earned a PhD in biochemistry and molecular biology from Cornell University and a Bachelor of Science in Chemistry from the University of Utah.

The awarding of degrees to the candidates' names in this program is contingent upon the satisfactory completion of the appropriate requirements by each candidate, as verified by the Registrar. The listing of a student's name in this program, or participation in the ceremony, does not ensure their graduation or the award of honors. This list includes only those who registered to participate in the graduation ceremony by July 30, 2026. Academic honors statuses noted in this program are based on the student's CGPA as of July 30, 2026.

The Purdue Global Commencement and related events will be broadcast live online and all attendees' student directory information, military branch (if applicable), videos, and photos shown during the ceremony will be photographed, videotaped, or filmed by authorized parties. The registration of all participants, submission of photos/videos, and attendance at or participation in the graduation-related events serve as permission for use of these names, images, and posts by Purdue Global, even for participants who have opted out of sharing directory information. Commercial photography or filming is prohibited without permission of Purdue Global.

HISTORY AND TRADITIONS

The Mace

Purdue Global commencements begin with the entrance of the University mace. The mace first appeared at the May 2022 commencement in Indiana. It was constructed by Michael Lorenz, Purdue Global Vice President of Strategy & Academic Operations and Registrar.

The mace consists of 18 segments, representing Purdue Global's founding in 2018. It is made entirely from locally sourced woods, symbolizing the University's Indiana heritage. One section is composed of layers of different woods, evoking the diversity of students, faculty, and staff that is a hallmark of the institution and its mission. Three pieces of the current mace are refurbished from the previous mace, a reminder of Purdue Global's legacy, which traces its roots to the American Institute of Commerce, a postsecondary school that opened in 1937 to provide training for underserved job seekers in a nation still reeling from the Great Depression.

The tradition of the mace originates from medieval times, when it was carried by bishops into battle as a protective device; later, it was carried by bodyguards of kings and others of high rank. Legislative bodies then adopted the ceremonial mace as part of the pomp and circumstance associated with the beginning of meetings. Today, many universities carry a mace to symbolize the importance of commencement and as acknowledgement of the academic process.

Legend of the Boilemaker

An 18-foot, 5,400-pound bronze statue that celebrates the lore and legend of the Purdue Boilemakers now stands next to Ross-Ade Stadium with an inscription that reads: The year was 1891. A college known for its proud heritage of educating the sons and daughters of the working class began to dominate opponents in football. After a 44-0 thrashing of Wabash College, a headline writer provided inspiration for a most unique nickname. 'Wabash Snowed Completely Under by the Burly Boiler Makers from Purdue' chronicled a victory by the 'Herculean wearers of the black and old gold.' Never intended as a compliment, the insult appealed to the students of the day. The indomitable spirit of the boilemaker is embodied in the tireless laborer you see before you.

Boilemaker Special

The locomotive design of Purdue's official mascot celebrates the University's renowned engineering programs. The first Boilemaker Special was presented in September 1940 and is often used to announce campus events.

Purdue Pete

Pete's story began in 1940 when University BookStore hired California artist Art Evans to draw a logo. The grinning, muscular icon reflected a boilemaker tradesman with a mallet for molding steel and hat to keep grease out of his hair.

In 1944, the logo was introduced as Boilemaker Pete, in Purdue's Debris yearbook, and on September 28, 1956, Purdue Pete made his first appearance at a pep rally before Purdue played Missouri, when student Larry Brumbaugh (ME'57) donned foam rubber padding, football shoulder pads, long black pants, a sweater with a P, and a papier-mâché head.

BOILER UP!

"Boiler Up!" is used as "Go Purdue" or as "Cheer Up!" Students also use it to greet each other and to cheer in football games.

This phrase was partly a creation of our former football coach Joe Tiller, who led Purdue's football team through one of the most successful periods of its history from 1997 through 2008. Before coaching at Purdue, he had coached at the University of Wyoming, also known as the Cowboys. During his time at the University of Wyoming, Joe Tiller used the Phrase "Cowboy Up" to cheer up his players. When he started working at Purdue, he wanted a similar phrase to use with the Boilermakers. Therefore, Joe Tiller and his wife, Arnett Tiller, came up with the phrase "Boiler Up."

However, coincidentally, a very similar phrase has been used decades ago in steam-powered locomotives. When the coal box was hot enough and the engine was ready to go, the fireman would yell "Boiler's Up!" to let the locomotive engineer and the conductor know the boiler was ready.

"HAIL PURDUE!"

"Hail Purdue" is Purdue's official fight song. The song was composed in 1912 by Edward Wotawa (music) and James Morrison (lyrics).

The Hail Purdue Wall

The Hail Purdue Wall was installed in the fall of 2014 to commemorate the song's 100th anniversary. Constructed using glass and brick, the wall is consistent with the rest of the red brick campus architecture. It was decided that the words would be etched onto glass to allow one to see the fight song with the "scenes of Old Purdue" behind it. The wall was placed near Elliott Hall of Music.

Big Bass Drum

Known as the “world’s largest drum,” it stands 10 feet tall on its field carriage and is handled by a crew of four band members with two beaters. The drum draws attention wherever it goes from fans who want their picture taken with the instrument. It still has its original 1921 frame, which is eight feet in diameter and nearly four feet between its two heads.

Old Oaken Bucket

In 1925, Dr. Clarence Jones, Indiana University alum, and Russel Gray, Purdue University alum, were given the task of finding a suitable trophy to represent the rivalry between the two schools. They traveled across the state in search of “the most typical Hoosier form of trophy.” Jones and Gray came across Bruner Farm, where a bucket hung from a well. They brought the bucket back with them and restored it. George Ade, representing Purdue, and Harry Kurrie, representing Indiana, presented the Old Oaken Bucket trophy to President Bryan, of Indiana University, and Dr. Elliott, of Purdue University, at Ross-Ade Stadium, in the 1925 game. Ironically, the 1925 game ended in a 0-0 tie. The bronze block “IP” was linked to the trophy to signify the tie. As of 2023, Purdue leads the overall series 77-42-6.
